SPECIAL WAR ANNOUNCEMENT

To the Trade

We, in agriculture, have been requested by the government to produce every pound of food we possibly can, to alleviate a critical shortage facing our war program. The Princeton Nurseries, accordingly, is planning to use all available land for food production; land that in our normal operations is used for cover and soil improvement crops. We urge every other nurseryman to take a similar course if at all possible.

Several years ago, and before this country had been drawn into the present struggle, we increased our production while labor was plentiful, so that we are now well stocked with fine young material growing in the field, enough to last us several years. Our present planting program of new materials has necessarily been reduced and features mostly replacements of plants wanted for essential government work projects.

For years we have specialized in the type of material used on general landscape plantings, and are able to offer one of the most complete assortments of hardy ornamentals in this section of the country. Although much of our efforts, in our nursery operations, will be used in supplying material for government war projects, defense housing, camouflage, and others, at the same time we will have an organization to handle your requirements. We solicit your want list and will do everything we can to cooperate.

Conditions of Sale

PRICES, ETC.

The prices named in this list cancel all previous lists. They are based on current market conditions and are subject to change without notice.

Terms:

PRICES: F.O.B. NURSERY AT KINGSTON, N. J.

To those with an established record for prompt payment or with satisfactory references, we are glad to extend our regular terms of thirty days from date of invoice.

2% DISCOUNT will be allowed for payment in ten days from date of invoice.

5% DISCOUNT will be allowed for **CASH IN FULL** with the order, providing digging or delivery is scheduled for not less than 30 days from date of order.

Orders for **shipment C.O.D.** must be accompanied by a remittance for one-third of the amount to insure acceptance. These are our only terms and no salesman or representative is authorized to alter them in any way unless confirmed from the office in writing.

25% ADDITIONAL CHARGE For SPECIAL SELECTION and TAGGING in the Nursery

Reduction in personnel makes it imperative to make a charge of 25 per cent additional on our regular listed price for the special selection and marking in the nursery of extra heavy or specimen plants. We invite inspection of our material and on quantity orders will, if requested, mark an average sample to assist our diggers in the selection of the grade wanted.

CLAIMS

All sales are made with the understanding that we shall not be liable in event of crop loss, or of damage from other causes over which we have no control.

We will gladly correct any errors, but we cannot entertain any claims that are not made within ten days after receipt of the stock or are made after the stock has once been accepted. Claims should be made promptly in writing on receipt of stock.

Plants become your property upon delivery to transportation company and we cannot be responsible for loss, damage, or delay in transit.

All orders booked are based on the distinct understanding that the purchaser agrees to the condition of sales as stated above.

SCHEDULE OF B&B CHARGES

The following charges are made to cover additional cost of baling and burlapping deciduous trees and shrubs that are not listed B&B. The size of ball for most stock is in accordance with the A.A.N. "Horticultural Standards" recommendations.

These charges are based on a *carefully dug*, solid ball of earth, *laced* with rope or wire, and handled according to the best nursery practice.

TREES, SHRUBS AND SMALL TREES

54"		4000 lbs.	32.00	30.00	—
60"		5500 lbs.	42.00	40.00	—

The above charges apply only F.O.B. NURSERY. We will be glad to estimate a delivered price based on the terms of delivery on page 3.

Ball depth will normally be not less than 60% of the diameter, and in all cases is adjusted so as to encompass a maximum of the fibrous root system of the plant.

PLATFORMS

Platforms, if required, will be charged for at the following schedule of prices based on actual cost of labor and material.

The amount so charged will be rebated, providing customers return platforms at their own expense.

Platform size	Usual Ball Size	Charge
24" sq.	30" to 36"	\$1.25
28" sq.	32" to 40"	1.50

Packing charges are at cost and represent the actual cost of the material used in the operation. No charge will be made for loading bulk truck or car lots.

DELIVERY SERVICE

Due to war restrictions and uncertainties, it is impossible at this time for us to set up a definite schedule of truck delivery charges or to guarantee deliveries. We, therefore, will be glad to estimate delivery cost and to arrange for trucking of your orders contingent on our ability at the time to use our own equipment or hire trucking.

"CARLOADS" AND FREIGHT SHIPMENT

Whenever it is practical we recommend rail shipment by freight or express.

With our own railroad siding connecting with the main line of the Pennsylvania Railroad and a daily pickup service on L.C.L. and express shipments, we are in a position to expedite shipment to you without delay. Consult your local agent for rates to Monmouth Junction, N. J.

GUARANTEE OF GENUINENESS:

We will send out healthy, thrifty stock, true to name. If any nursery stock proves untrue to description or variety name under which it is sold, we hold ourselves in readiness, on proper proof, to replace free of charge such stock that may prove untrue to description or name, or refund the original amount paid. We shall in no case be liable for any sum greater than the amount originally received for said stock.

WAR PROVISIONS—Due to the war, all agreements and contracts are subject to priorities, covering material, transportation, and labor, and any other restrictions that may hinder or prevent us from performing on such agreements.

Packing Shed and Railroad Siding provide direct facilities for freight shipment.

Notes in Explanation of Catalogue

The figures following each variety indicate in feet the approximate height of that plant in maturity. Ample allowance has been made for the many physical factors that tend to modify the growth of plants in cultivation.

The botanical and common names are largely taken from "Standardized Plant Names," the accepted authority on plant nomenclatures in the horticultural industry.

Our standard of grading all plants is based on a schedule which has been adopted by the American Association of Nurserymen.

SPECIAL OFFER — ASSORTED SHRUBS

Our selection includes all desirable varieties for landscape plantings.

Many of our customers have asked us for assorted shrubs where the varieties do not have to be specified. We are, therefore, offering three groups of shrubs this season. The varieties used will naturally be made up of items that we have in good supply at the time.

	100 or more	1000 or more
GROUP A—Shrubs, 2 yr.	.17	.14

Average 2 ft. or more, including all good ornamental varieties of Deutzia, Spirea, Callicarpa Philadelphus and others.

GROUP B—Shrubs, 3 yr.	.22	.18
-----------------------	-----	-----

Average 3 ft. or more, including all good ornamental varieties same as above.

GROUP C—Special, 3 and 4 yr. Shrubs	.30	.25
--	-----	-----

Average 3 ft. or more, including all good ornamental varieties as above with the addition of some of the better, higher priced varieties of Viburnum, etc.

We may also from time to time have special offers of assorted SHADE TREES, SMALL EVERGREENS, or other items. Consult us first and take advantage of the savings involved.

FRUIT TREES and SMALL FRUITS

We have continued to grow a selected list of the better varieties of apples and the newer improved varieties of peach trees. This year we have added a wide selection of fruits and small fruits for the home garden, and orchard.

APPLE TREES

Listed according to their season of ripening.

YELLOW TRANSPARENT

Very early, medium sized yellow apple, exceptionally good for cooking.

PETREL

A high quality, mid-summer, eating and cooking apple.

Large sized early fall apple, noted as an eating apple of exceptional flavor and aroma. The trees are strong and vigorous, cropping annually.

CORTLAND

An improved McIntosh type ripening ten days later than McIntosh. Color is brighter with stripes. Tree is vigorous and productive.

YELLOW DELICIOUS

A widely advertised yellow apple. In N. J. it is a late Fall and early Winter, large apple, high quality. Tree is vigorous grower.

RED DELICIOUS

Probably the most popular eating apple, of distinct flavor and aroma. Good keeping qualities.

STAYMAN

One of the best general purpose late winter apples; firm flesh, deep red color.

ROME BEAUTY

Very large, late winter apple, noted for its good keeping qualities and used principally as a cooking apple.

RED ROME

A red sport of the Rome, a trifle smaller than the Rome Beauty, but it resembles it in other characteristics.

BALDWIN

An old favorite in the Northeastern States. Good for cooking and eating.

FRUITS IN THE VICTORY GARDENS

will make an important contribution to the war effort. The heavy demand for fresh and processed fruits by our government and armed forces makes it extremely important to encourage in every way possible orchard and home plantings so that our family needs will be adequate for proper health. We would anticipate a heavy demand on our regular production for several years after the war and therefore not only encourage the quickly maturing small fruits but also the various tree fruits which may take from 2 to 4 years to come into bearing.

How to Reach Princeton by Auto or Train

We are located midway between New York and Philadelphia. Both the Lincoln Highway and the new Super-Highway (Route 26) pass our nurseries.

The office of Princeton Nurseries is located on Lake Road in the township of Kingston, New Jersey.

The nearest railroad stations are at Princeton and Princeton Junction, on the main line of the Pennsylvania Railroad. Phone Princeton 1776 or 1777 and we will be glad to come and meet you at either place.

The New York-Washington planes pass over our nursery hourly. When travelling by airplane, watch out for the interesting block arrangement from the air.

We would call your attention to the fact that we have one of the largest nurseries in the country with over 1000 acres of nursery stock. We are growing between 1100-1200 varieties of hardy woody ornamentals.

A cordial invitation is hereby given to visit our nursery at any time.
